

# Japanese Zengakuren Fights Privatization in Solidarity with March 4 Strike & Day of Action

**Workers, internationally united, can defeat race to the bottom.**

## Stop Privatization of Education!

March 4 Strike and Day of Action greatly encourages and inspires students and workers in Japan and all over the world. This is a very turning point of the history.

Our enemy is one and the same. We want to overthrow neoliberal “education” system.

Japanese Universities have also been turned into instruments for profiteering. Since 2006, the Hosei administration has hired thugs and the security police arrested 118 students who criticized neoliberal money gamble and oppression at Hosei. The Japanese “justice” system authorized several months of prolonged detention.

But we strengthened our unity and solidarity. All the 118 arrestees, including first-year students and minors, maintained complete silence in interrogation room.

Students’ power is unlimited if we believe in our friends and strengthen our solidarity and unity.

Free Speech Movement in Hosei University: Students speak out against neoliberal Uni administration and police repression

Delegation from California—ILWU Local 10 and United Teachers Los Angeles—spoke at our rally against layoff, privatization, union busting and war and marched downtown Tokyo

Let’ strengthen international unity and defeat privatization of education!

Let’s fight against war on Iraq, Afghanistan and on Iran and North Korea!

Let’s overthrow Japan-US Security Alliance!

**Money for Education not War!**

**Whose University? OUR University!**

**Whose Society? OUR Society!**

**Whose world? OUR world!**

Thugs hired by Hosei University beat daily dissident students and intimidate students who receive their flyers or talk with them.
